BCA / B. Sc IT COURSE

3 YEAR DEGREE COURSE :-
B. Sc IT / BCA is an graduation course offered in IT. HCL CEO recently quoted that more then 94% of IT graduates in India are unemployable. That's primarily because none of the B.Sc. IT / BCA courses offered by any universities are covering the latest technologies.
Our programms are more practical driven providing an opportunity to every students to learn the latest technologies / Programming languages instead of typical decade old universities syllabus.
This course is designed to keep up with the time, meet the growing Industry requirements and train the students in what Industry requires the most. Each Year is dedicated to imparting specialized education in a specific softwares.
After 3 years, Students obtains graduation degree specializing in IT along with 1 year IT Diploma and 2 years Advance IT Diploma.
